Introduction

Learning to dance for your wedding is a special gift that you and your future spouse give to each other. Being confident and poised for your first dance together as husband and wife will create lifetime memories. *On completion of the wedding package, our wedding gift to you is a free private lesson when you return from your honeymoon.* (Yes, this is to encourage you to continue!) Dancing is a wonderful way to stay fit, learn more about balance and the body, and enjoy the social benefits of dancing together.

Choosing the Wedding Dance and Music

The Waltz

The Waltz is the traditional Wedding Dance. It is the most elegant and romantic of the dances. It has a graceful and regal character. This dance gives wonderful feeling on the dance floor. It is perfect for your wedding day. We offer a range of beautiful music from which you can choose to dance this beautiful dance to.

Other Dances

Many couples have their favorite song which might not be suited to a Waltz. We can check to see which style of dance would be most appropriate to match the rhythm and feeling of the music. We also have a large variety of music for you to choose from so you can dance to a song more suited to the wedding day.

Other Considerations

Apart from the choice of style and music, there are a number of other considerations to be taken into account. For example:

- ~ What is possible to dance in the wedding dress
- ~ How big the dance area will be
- ~ How are you going to enter or leave the dance area with style

And, don't forget, the Wedding Dance is not the only dance at your reception! Start with the amazing value *Dance Starter Kit*, the move onto the specific choreography for your Wedding Dance. You will then be able to dance other dances throughout your reception, such as the traditional dances with the Parents of the Bride and Groom, and feel comfortable with the basics of a range of dances so that you can enjoy the rest of your evening!
